

National Service Scheme (NSS) Report on Thalassemia Awareness & Screening Camp

Date: 4th March 2025

Venue: Sat Kaival College of Pharmacy

Organized by: NSS Unit, Sat Kaival College of Pharmacy

Objective:

The NSS unit of Sat Kaival College of Pharmacy organized a Thalassemia Awareness & Screening Camp on 4th March 2025. The objective of the event was to educate students about Thalassemia, its causes, prevention, and importance of early detection through screening.

Event Details:

The program began with an inaugural session, where the Director sir, principal and NSS coordinator addressed the gathering, emphasizing the significance of Thalassemia awareness. A guest lecture by a medical expert provided in-depth knowledge about the genetic disorder, symptoms, and management strategies.

Following the awareness session, a free Thalassemia screening test was conducted for students and faculty members in collaboration with a Redcross. Trained medical professionals carried out the screening process, and participants were informed about their test results confidentially.

Outcome:

- Over 152 students and faculty members actively participated.
- Participants gained valuable insights into Thalassemia and the importance of screening.
- Many students took the screening test to ensure early detection and awareness.

Conclusion:

The event successfully raised awareness about Thalassemia among students and staff, reinforcing the need for genetic screening as a preventive measure. The NSS unit extends gratitude to the medical team, faculty members, and volunteers for their support in making the event a success.
